3 things to put right before an inspector comes: 1 register has something missing, 2 need a look.
From the Inspection check of 01/09/2026 to 31/10/2026. The contents page lists every register; each register's gaps are listed before its pages.

01/09/2026 to 31/10/2026. Registers that are kept by the month print whole months, as their screens do; the check covers only the days above.

11	Sign-off		Pharmacist in charge and inspector

Missing: something the register should have is not there. Look at this: worth a look before the inspector does. Not on file: nothing recorded yet. Not checked: the register could not be read when the pack was made. Every gap is listed in full at the start of its register.
